Abstract

This is the abstract.

1 First section

This is how you cite a paper [1] in an markdown file. Equation test: $\partial f / \partial x = 0$. Displayed math style:

$$\frac{\partial f}{\partial t} = \alpha \nabla^2 f \tag{1}$$

Here is another equation:

$$E = mc^2 \tag{2}$$

2 Conclusion

This is the conclusion section.
